

Application No. 09/977,462

Response and Amendment dated August 4, 2003

Reply to Office Action mailed February 3, 2003

IN THE SPECIFICATION

Please amend the first sentence of paragraph 44, found on page 11 of the filed specification, to read as follows:

“Keeping in mind that the signal is importantly a function of the location of the viewer’s eyes, the detected signal can vary to some extent.”
